Hi Emily,

Pregnancy Care Center contacted me and said that when they complete the EPDS form and click on Submit it will show them an accurate score. But after receiving the message that the form was saved, it shows a much higher and inaccurate score. I've attached a couple of screenshots they sent me to show you. At Submission, [REDACTED] had a score of 8 but the database is now showing a score of 30. [REDACTED] had a score of 7 but the database is now showing a score of 34.

I'm guessing this is an IT question. Let me know how to proceed and when the problem has been fixed.

Thanks!
Carrie
